PROJECTS

Bucket — *Create and track bucket list goals, share your experiences*
+ Implemented a self-referential association model using ActiveRecord to create a 'follow' feature
+ Created custom server-side authorization in Ruby and custom client-side validations in JavaScript
+ Applied JavaScript, HTML/CSS and Semantic UI framework to create a mobile-first responsive application

MyCloset — *A personal wardrobe manager inspired by e-commerce*
+ Secured application and data access by implementing authorization (Devise) and third-party authentication (OmniAuth)
+ Designed a RESTful API and used AJAX requests to retrieve serialized data in JSON format
+ Utilized the jQuery library to send XHR request and manipulate the DOM to create a seamless user experience
+ Integrated relational database modeling and ActiveRecord to manage Controller-Database interactions (queries, updates and deletions)

EXPERIENCE

Sol Yoga, Norwood, MA & New York, NY — *Yoga Instructor*

AUGUST 2014 - PRESENT

+ Guide students of all levels and ages in meditations, breathing techniques and poses to encourage physical and mental flexibility, strength, awareness and gratitude

ISPOSSIBLE IN TECH, New York, NY — *Director of Consulting*

MARCH 2016 - JULY 2016

+ Spearheaded launch of a new technology consulting practice
+ Liaised between clients and developers to accurately relay gathered technical requirements for contracted projects

TEKsystems, Inc., New York, NY — *Technical Recruiter*

MONTH 2015 - MONTH 2016

+ Utilized creative networking techniques and strategies to recruit top talent in niche technical skill sets
+ Developed a thorough candidate screening process to better gauge skill set, qualification and cultural fit
+ Leveraged independent research and personal interest in technology to gain trust and attract top candidates/clients
